Section 1B: Domain Registration Info:

DOMAIN NAME: HarrisburgDance.com
hosted at www.HarrisburgDance.blogspot.com
REGISTRAR: GoDaddy.com
PHONE NUMBER: (480) 505-8877
CUSTOMER NO: 01223547
LOGIN ID: argis8391
P'WRD: #Spamkhil32 (1st letter is uppercase {GoDaddy requires 1 UC})
PIN NO: 9473
EXPIRATION DATE: 8/1/2013

COMMENTS, re Renewing:

* What You Need to "Stay On Top Of": Make sure the domain name does not EXPIRE (gets messy).

. . . . You'll get renewal notices via email.

* When due, I suggest renewing for 5 YEARS, to "get it out of the way".

* You should be able to renew this domain by TELEPHONE (or their website).

* You need a CREDIT CARD number. You can use a temporary "Shop Safe" credit card number, but this is not necessary.

COMMENTS, re Changing Password:

*You can change your password (and also your ID) to one that only YOU know -- but please notify Ingram so he can note this in his records.

* Passwords can be gotten from codefrontiers.com/passwordgenerator; deliberately MISPELLED for security.

Section 1C: Email Notifications From Registrar:

Email: Registration address "**HarrisburgDance-register@exterminate-all-spammers.com**"

--> forwards to:

. . Personal Email 1: john@aol.com

. . Personal Email 2: jane@aol.com

. . x-customer-register@exterminate-all-spammers.com (Ingram)

COMMENTS, re Changing Registration Address:

*You can substitute your OWN email address for registration, but be AWARE that Spammers can see it, by doing a "whois lookup".

*The use of the above forwarding address, "protects" your personal address, by hiding it from the Spammers.

Section 1D: Forwarding Email Address for Web Page:

The forwarding address

"**HarrisburgDance-fwd@exterminate-all-spammers.com**" can be displayed on the "Contact Us" page, and will forward to these 3 addresses:

--> forwards to:

- . . Personal Email 1: john@aol.com
- . . Personal Email 2: mary@aol.com
- . . y-customer-public@exterminate-all-spammers.com (Ingram)

COMMENTS, re Forwarding Email Address:

*The use of this 2nd forwarding address is OPTIONAL.

*This address will "**HIDE**" your personal address from the Spammers.

*If it starts getting Spam, it can be deleted or changed.

*Note this address has NOTHING to do with the domain registration. I'm just using this Section 1D as a place to document it.
