

Loyalsock 1966 Classmates List — — 5/6/09

(taken from Elaine Mason Parker's 4/08/2009 list, with recent updates added)

List 1 – Sorted By Last Name, 5/6/2009

- This data is taken from the master list maintained by Elaine Mason Parker.
- Consider this list to be only **APPROXIMATE**. Trying to keep this information organized is a headache.
- **“Group 1”** contains names of 142 classmates, sorted by last name. Maiden name is used for women.
- **“Group 2”** below, contains names of 19 deceased classmates.

Explantation Of Columns

- **Column 4** “Contact Info Status” indicates what Elaine and her helpers know -- address, phone, email.
- For PRIVACY reasons, we don't show the actual street address nor phone nor email. We just indicate whether it is “known” or “unknown”. In some cases we have only partial information, in some cases none.
- **Column 5** indicates if they have email(has/none/???). The entry “???” means we don't know. Some classmates have email, but declined to tell us their address.
- **Column 6** indicates if they are in the Yahoo discussion group (in/out). Some classmates have email, but won't let us add them to the Yahoo Group (aka Listserv). Others don't reply to our queries, so they have not been added either.
- **Column 7** is an additional record-keeping field for Listserver (Yahoo Group) status. For people not in the Listserver, this column shows if they declined, or if they never responded to our queries. If they are in the Listserver, it shows the date we added them.

THE THREE LISTS: (Separate Files)

List 1 shows classmates but sorted by last name.

List 2 shows the same classmates, but sorted by STATE and city.

List 3 show which classmates are in the Yahoo group, and which are not.
